This booklet celebrates the productivity and creativity of the Oberlin College of Arts and Sciences faculty in 2013. As teacher-scholars deeply committed to the project of liberal arts education, our faculty is equally committed to the production of new knowledge and its dissemination. Over the past year, faculty have published 138 articles and book chapters; 18 books; mounted or screened 27 performances, exhibitions, and documentaries; and produced 1 translation and 32 reviews.

The catalog reflects the strength and vitality of our artists, and humanists, social and natural scientists. The range and depth of the scholarship displayed in these pages are very impressive, and the document both confirms and exhibits our engagement with the world and the life of the mind.

As you leaf through these pages, join me in celebrating the wonderful accomplishments of our gifted faculty!
