See Galápagos as Darwin did—aboard an expedition ship equipped to give you the most engaging experience possible. Voyage from island to island and make fresh discoveries daily on our 10-day expedition. Hike, kayak, and Zodiac cruise to and around intriguing islands. In the 40+ years we’ve been exploring here, we’ve introduced generations of guests to the magic and mystery of Galápagos.

Jan. 8: U.S./Guayaquil, Ecuador
Depart U.S. and arrive Guayaquil by late evening; it’s a short drive to Hotel Hilton Colón, where we spend the night.

Jan. 9: Guayaquil / Galápagos / Embark
After the 1 1/2-hour flight to the Galápagos, we’ll immediately board the ship. Over the course of the week, our exact routing depends on the National Park Service. (B, L, D)

Jan. 10-15: Galápagos Islands
The following is a representative sample of the islands we may visit during your week on board: (B,L,D daily)

Bartolome
This is an enchanting landscape where lava, mangroves and golden sand converge. Great walks and views abound, with a chance to snorkel with Galápagos penguins.
neighboring captive breeding program for endangered species of Galápagos giant tortoises, run by their partners in conservation, the Galápagos National Park Service.

Isabela
A small black sand beach offers wonderful morning swimming. Enjoy a more challenging hike over rugged shoreline and a shorter walk within an iguana colony. Kayaking and deep water snorkeling opportunities are on offer.

Fernandina
This is the youngest island in the Galápagos and one of the most pristine tropical islands left on earth. Look forward to hikes over relatively recent lava flows, and spot marine iguanas, flightless cormorants, and Sally Lightfoot crabs.

Floreana
Snorkel among sea lions in the clear waters off Champion Islet. We may also find flamingos, pintail ducks and various shorebirds. Hike to a pristine white-sand beach, a favorite nesting site for sea turtles.

Española
The exclusive home to waved albatross (seasonal) and particularly colorful marine iguanas, Española is also a paradise for Darwin’s finches, sea lions galore, and the famous blue-footed boobies. Snorkel and stroll along the island's lovely beaches.

Jan. 16: Galápagos / Disembark / Guayaquil
Disembark and fly to Guayaquil. The late afternoon and evening are free to explore the city. Overnight Hotel Hilton Colón. (B)

Jan. 17: Guayaquil / Home
This morning fly home. (B)

Escorted by Oberlin Associate Professor of Biology Roger Laushman

Professor Roger Laushman’s research interests are in population genetics and ecology, with particular emphasis on invasive species and conservation biology. He earned degrees from the University of Kansas, Iowa State University, and the University of Georgia—Athens. Prior to joining the Oberlin faculty, he was a postdoctoral fellow at the University of Washington’s Friday Harbor Laboratories and worked for two years as an ecologist for the Nature Conservancy. He teaches Environmental Biology, a First-year Seminar: Everyday Evolution, a senior seminar: Conservation Biology, and field courses in Plant Ecology and Population Biology. He is also a member of the Environmental Studies Program, and in 2014 was recognized with the David Orr Professorship in Environmental Studies. Roger values the close interaction with Oberlin students, both formal and informal, and enjoys outdoor activities, especially canoeing and gardening.
