American Heart Association - Summer Undergraduate Research Fellowships (SURF) available for summer 2015 at Northeast Ohio Medical University (NEOMED)

The NEOMED Cardiovascular Focus Group has been awarded a grant from the American Heart Association to fund 5 summer undergraduate fellowships (approx. $3000/10 weeks) in several diverse areas of cardiovascular research. For a preview of research areas and faculty mentors please visit the departmental website for Integrative Medical Sciences:

http://www.neomed.edu/academics/medicine/departments/integrative-medical-sciences/faculty-research-laboratories

Applicants must be entering their junior or senior year of college by fall 2015, be in good academic standing (GPA 3.0 or above), demonstrate interest in pursuing a graduate degree and career in biomedical research (preference to future PhD students, specifically include these plans in your personal statement). Students must be US citizens or hold a student or permanent resident visa.

Qualified applicants should submit the following by March 20th, 2015:

1. List of classes taken and grades earned in each (include current cumulative GPA)
2. Personal statement outlining research, career, and graduate school interests (1 page limit)
3. Letter of recommendation from academic advisor or professor at your institution

Students selected for the fellowships will be matched with research advisors after the initial applications are received and reviewed. Please email the above materials in word or pdf format (item 3, letter of recommendation should be sent separately by faculty member) to both:

Gary Meszaros, PhD (jgmeszar@neomed.edu) and Liya Yin, PhD (lyin@neomed.edu)
