SUMMARY OF BENEFITS

Cigna Health and Life Insurance Co.
For - Oberlin College
Open Access Plus Plan OAPA

Selection of a Primary Care Provider - your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, Cigna may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit www.mycigna.com or contact customer service at the phone number listed on the back of your ID card. For children, you may designate a pediatrician as the primary care provider.

Direct Access to Obstetricians and Gynecologists - You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit www.mycigna.com or contact customer service at the phone number listed on the back of your ID card.

**Maximum Reimbursable Charge**
Out-of-Network services are subject to a Calendar Year deductible and maximum reimbursable charge limitations. Payments made to health care professionals not participating in Cigna's network are determined based on the lesser of: the health care professional's normal charge for a similar service or supply, or a percentage (110%) of a fee schedule developed by Cigna that is based on a methodology similar to one used by Medicare to determine the allowable fee for the same or similar service in a geographic area. In some cases, the Medicare based fee schedule is not used, and the maximum reimbursable charge for covered services is determined based on the lesser of: the health care professional's normal charge for a similar service or supply, or the amount charged for that service by 80% of the health care professionals in the geographic area where it is received. The health care professional may bill the customer the difference between the health care professional's normal charge and the Maximum Reimbursable Charge as determined by the benefit plan, in addition to applicable deductibles, co-payments and coinsurance.

**Multiple Surgical Reduction**
Multiple surgeries performed during one operating session result in payment reduction of 50% to the surgery of lesser charge. The most expensive procedure is paid as any other surgery.

**Pre-Certification - Continued Stay Review - PHS+ Inpatient** - required for all inpatient admissions
In Network: Coordinated by your physician
Out-of-Network: Customer is responsible for contacting Cigna Healthcare. Subject to penalty/reduction or denial for non-compliance.
- $500 penalty applied to hospital inpatient charges for failure to contact Cigna Healthcare to precertify admission.
- Benefits are denied for any admission reviewed by Cigna Healthcare and not certified.
- Benefits are denied for any additional days not certified by Cigna Healthcare.

## Definitions

**Coinsurance** - After you've reached your deductible, you and your plan share some of your medical costs. The portion of covered expenses you are responsible for is called Coinsurance.

**Copay** - A flat fee you pay for certain covered services such as doctor's visits or prescriptions.

**Deductible** - A flat dollar amount you must pay out of your own pocket before your plan begins to pay for covered services.

**Out-of-Pocket Maximum** - Specific limits for the total amount you will pay out of your own pocket before your plan coinsurance percentage no longer applies. Once you meet these maximums, your plan then pays 100 percent of the "Maximum Reimbursable Charges" or negotiated fees for covered services.

**Prescription Drug List** - The list of prescription brand and generic drugs covered by your pharmacy plan.

**Transition of Care** - Provides in-network health coverage to new customers when the customer's doctor is not part of the Cigna network and there are approved clinical reasons why the customer should continue to see the same doctor.
